The Care And Feeding Of Books Old And New: A Simple Repair Manual For Book Lovers

Synopsis

When Margot Rosenberg and Bern Marcowitz opened Dog Lovers Bookshop, they expected to be asked mostly about dogs and canine literature. But soon they found themselves fielding questions about the care of books. Customers who bought books, especially older volumes, on providing good care for their dogs were often eager for guidance on how to care for their cherished books, too. The book-care advice currently available is too often geared to book professionals, not amateur bibliophiles who just want to keep books safe and happy, remedy their simple ills, and perhaps enhance their value. *The Care and Feeding of Books Old and New* features easy-to-follow instructions that emphasize the use of common household products in simple repairs and in the cleaning of books and dust jackets. Bern and Margot have written the book that they, and their customers, wanted: a concise and friendly volume comparable to the better commonsense guides to everyday dog care. Indeed, the authors think that their approach to book care is directly attributable to years of caring for all kinds of dogs, and the inspiration of dog books. In short, this handy book-owner's manual is meant to help you become your books' best friend.

Book Information

Hardcover: 190 pages

Publisher: MJF Books; 1st edition (October 9, 2002)

Language: English

ISBN-10: 1567317723

ISBN-13: 978-1567317725

ASIN: 0312300670

Product Dimensions: 5.7 x 0.8 x 8.6 inches

Shipping Weight: 12.8 ounces

Average Customer Review: 4.0 out of 5 stars 17 customer reviews

Customer Reviews

Rosenberg and Marcowitz, owners of Manhattan's Dog Lovers' Bookshop, gently introduce readers to the pleasures and intricacies of book TLC, along with not-so-random asides about canines.

Carefully, they detail both friends of books (no direct sunlight, clean cloths, and sturdy level shelves)

and foes (dust, insects, and the like) as well as simple cleaning and repairing. Nothing is complex--Elmer's Glue, for instance, rates as one of the best panaceas. And nothing is rushed--"dogs teach patience," the authors counsel. Everything here is absolutely dedicated to an enduring love of the printed page, accompanied by reflections on collecting, borrowing/lending, and enjoying the society around books. Head, tail, and spine above most nonfiction how-to's, this modest book deserves attention far beyond the universe of bibliomaniacs. Barbara JacobsCopyright

"A thorough and conversational manual by the founders of the Dog Lovers Bookshop (www.dogbooks.com)."
--Time Out New York
"Everything here is absolutely dedicated to an enduring love of the printed page... Head, tail, and spine above most nonfiction how-to's, this modest book deserves attention far beyond the universe of bibliomaniacs."
--Booklist
"Perfect for amateur bibliophiles"
--Book Reporter
"This small, charming book about books is both practical and whimsical"
--Curled Up with a Good Book

The Care and Feeding of Books Old and New: A Simple Repair Manual for Book... I have just given a review of the two book os this title hoping to avoid so much repetition. I have ordered a third to use as mentioned in the previous comments. PLEASE,!!! unless the book is not in the condition offered I will not give further comments.

The backcover blurb reads "Here at last is a short, simple, inexpensive guide to book care and repair." Amen! While this book, as other reviews suggest, may not be ideal for rare or leather-bound books, it is great for the mundane volumes of any book collection, or for experimentation purposes, if you're a neophyte repairer. Their advice for removing old price stickers, e.g., is excellent and easy and less harmful than the use of a fingernail. In addition, the advice comes with a charming dialogue about dogs the authors have owned and loved, and the dogs' contribution, or lack thereof, to the book owning and cleaning process. I have thoroughly enjoyed this book and would recommend it as a first step toward book repair mastery. Just don't try it on your Gutenberg Bible!

Illustratiion would've been more effective.

I have not received it but I want to repair some old story books for my granddaughter. It has to help in any small way and that will be great. Been looking for this fir years.

This is a great little book. Anyone who is a book lover needs one of these pronto!!

I bought this to find out how to repair books in our church library but haven't found it really helpful. It's an interesting book but don't think it's what I'm really looking for.

excellent book

really valuable book
