# Italian Picture Word Book (Dover Children's Language Activity Books)

## Synopsis

Here's a pleasant and effective way for students of Italian to build and strengthen vocabulary skills. The book consists of 15 carefully rendered scenes (14 double-page and one single-page), each devoted to a different theme or topic. Lo zoo: At the zoo La fattoria: On the farm La camera di una ragazza: Girl's bedroom La camera di un ragazzo: Boy's bedroom La scuola scolastica: Classroom Il soggiorno: Living room Il bagno: Bathroom La sala da pranzo: At dinner Il supermercato: Supermarket La spiaggia: At the beach and five more. Each illustration contains dozens of common objects, clearly labeled in Italian. By studying the illustrations, students can learn over 500 words for common household items, clothing, foods, vehicles, furniture, names of animals, parts of the body, types of stores and public buildings, and much more. To help reinforce words and meanings, all the scenes in this book are ideal for coloring. In addition, a complete list of Italian words (with definite articles) and English translations will be found at the back of the book. The result is an attractive and useful language resource that will appeal to any student of basic Italian, child or adult.

## Customer Reviews

Text: Italian

Best way to learn vocabulary for any language. have this for Spanish, German and Italian. Think of the word while coloring the item. I scanned and printed it four times, coloring each set and keeping in a binder for review. I have just started on the Italian but I am certain the results will be the same. I also listen to Italian language CDs and online YouTube movies in Italian while coloring.

Not exactly what I wanted. If you are looking for a book that also has the English word with the Italian, this does not have it. It is also a coloring book...which I didn't realize. Would be better for an older kid that is pretty familiar with the Italian language.

It's okay for the price. It's a lot on each page and not every word is super obvious as to which pic it goes with. It was cheap so it's no biggie but definitely not the best.

This coloring book is wonderful! The pictures are very nice and every object is labeled in Italian. Since the pictures are so detailed and complex it is meant to be colored by an older child.

great beginner book. The students were shocked at how easy Italian was since many already speak Spanish. What an eye opener.

But not terrific either. This is not a very good book for children as it is very detailed, very cluttered (especially the city scene and the supermarket), and frankly very confusing. On the other hand... while there are certainly words in there that seem a bit silly to learn (I doubt birdbath is a commonly used word!), I would recommend it for college students who want to have a little fun while building vocabulary... It's easier than memorising a vocabulary list, and the words stick in your memory better after colouring a visual image.

Very helpful with learning.

The text of the words is somewhat small, but it is still a nice product.
