Diversity is the spice of life, and the highly regarded *Cultures of the World* series celebrates just that in fully updated, and expanded editions. As has always been true of these outstanding titles, an abundance of vibrant photographs -- including those new to this edition -- stimulate the imaginations of young readers as they travel the globe. A new chapter on the environment focuses on politics and economics as well as on endangered species and the effects of industrialization. ## **Customer Reviews**

Grade 6-10-Straightforward, up-to-date overviews of two Arab nations. In addition to the standard coverage of country books, these well-written texts address the changing roles of women; marriage and funeral customs; examples of typical wages; and the manner in which different social, ethnic, and religious groups interact with one another. The attractive layout features a high-quality full-color photo on each page. Pastel-colored blocks of text give more in-depth information about high-interest topics. An uncluttered physical map of the country is useful, as is a world map that shows the nation's relative size and continent placement. A "Quick Note" section outlines major statistics and ready-reference facts. Arabic words are defined in the text and in the glossary. Two valuable additions that flesh out cultures that Americans need to know more about.Sandra L.
