Anyone learning English Grammar and or planning to teach it .. this is a great resource (especially if you need a smaller step before purchasing the larger \$150 Longman Grammar Book)!

specific ideal detail examples linguistic teacher asked us use this useful book. it much helpful in english, love it .

Is very usefull. Thanks

Gooooood

The book is good, but I don't recommend for non English speakers (my case).

This grammar is descriptive and I love it, if you are student at university then buy it

Very good!

I had to use this book for my Language Learning Teaching class and there were parts of the book that really helped me out in better understanding English grammar. However, this book is very complex and difficult to follow. Everything is really dense and the material seems harder than what it really is. Without the guidance of my professor I would of for sure been lost trying to read and comprehend all the material.
