## Customer Reviews

Book by Paher, Stanley W.

I own a lot of Nevada Ghost Town books, and when it comes to old photos and site information, this is THE book. The author covers nearly every site I have ever found and does a great job of showing you photos of how these places once looked. If you are looking for a book that tells you how to get to these places, this is NOT the book you want. You can find the GPS coordinates for many of these sites online. If you are looking for a book with a lot of very good history and photos of Nevada Ghost Towns and Mining Towns, this is the book you want. I give it an easy five stars for the sheer amount of information and excellent old time photographs.

I like

I've had this book over 30 years and someone stole it, glad to see I was still available. A great book with lots of pictures and history, if you enjoy ghost town hunting in Nevada.

OMG loads of info and so much detail about the camps....definitely a book to really learn about the history of some of these mining camps and ghost towns....Stanley Paher is likely the one that all of

the other nv ghost town books get their info from....might as well read from the original source!

Highly recommend this book

I had purchased the first book when I met Mr., Paher in Nevada, but through the years in the Military and moving around the world, it became lost. The book still holds my interest, and I would highly recommend it.

I purchased for my brother as a gift and he really enjoyed it!

I got involved, as an investment, with two gold mine prospects in the area near Las Vegas. This book caught my eye as a way to do some background information on the mines in which I was involved, as well as other mines that had been closed or abandoned. The history behind these gold mines was extremely helpful and very interesting background on how this area became populated.

This is a very nice books of Ghost Towns of Nevada. I like it very much and i recommend it for anybody who wants to know about Nevada Ghost Towns.
