Fire And Sword In The Sudan

Synopsis

If Slatin was looking for adventure as he rode his camel into Sudan's Darfur province in 1881 he got it in spades when one of the most spectacular wars of the 19th century broke out. Under the leadership of their leader known as the Mahdi, a vast native army arose to throw off their Egyptian overlords and cast out its foreign governors. Suddenly what had seemed to Slatin like a well-ordered military career in a quiet back water became a savage struggle of survival between natives and foreigners. Slatin was captured and enslaved. Gordon was surrounded at his capital in Khartoum and beheaded. England eventually arose in outrage and sent out an army to retaliate. But it did not arrive before the young Austrian had undergone a series of adventures, survived cruelties too numerous to mention and escaped across the desert one step ahead of his enraged captors. *Fire and Sword in the Sudan* records the life story of one of the 19th century's most gallant soldiers, a man who after escaping from brutal slavery, was awarded military honours by Queen Victoria and returned to the Sudan to assist the very people who had held him in captivity. Amply illustrated, this timeless account remains one of the most important and captivating tales of the Sudan ever written.

I found this to be a very interesting historical account of a career soldier combating muslim forces in the Sudan who surrendered, swore loyalty to enemy and even agreed to practice their faith. There will be those who feel his eventual escape to freedom, after more than ten years as a slave, came at the price of his honor. They may be right. Then again, maybe the real honor is in overcoming and surviving. This is, if nothing else, a fascinating story of survival.
