Nice book on sharks... the DVD not so much. Too technical. Wanted to see all the fish and sharks underwater. Instead it focused on large machinery used under water.....

The book is really good, but the video is not about sharks. It's about discovering the bottom of the ocean, humpback whales, and the coral reef. No Sharks! Don't get me wrong it's a great video but My son wanted a shark video.

My son loves the book and the movie. The movie really isn't about sharks but he still loves it.

My daughter loved this book, she is a huge fan of sharks and this provides a lot of information.

Absolutely beautiful pictures and information on sharks. A must have for kids that love sharks !!!

This book is awesome and the DVD is too.. my son wants to read from it every day!

AWESOME ILLUSTRATION AND MY NEPHEW WAS EXCITED TO GET THIS!

Book is great. DVD that came with it was awfully boring
