Dying Breath: A Heart-Stopping Novel Of Paranormal Romantic Suspense (Krewe Of Hunters)

Synopsis

Buried alive…Â As a teenager, Vickie Preston survived an attack by a serial killer. That was the first time she saw a ghost. Now the city of Boston is being terrorized—someone is kidnapping women and burying them alive, but cruelly leaving a glimmer of hope for the authorities by sending a clue about their location. Vickie is pulled into the investigation when her name is mentioned in one of the notes. And as a historian, she has the knowledge to help uncover the graves the killer known as the Undertaker is choosing. But she also has another, unique lead: the spirit of one of the victims is appearing to her in dreams.Â Special Agent Griffin Price is on the case for the Krewe of Hunters, the FBI's special unit for paranormal investigators. He feels particularly protective of Vickie, since their shared past is connected to the threat that currently surrounds them. With the killer accelerating his plans, time is running out for more victims hidden around the city. Vickie is becoming closer with Griffin, but she's getting too close to the danger, and every breath could be her last.

Customer Reviews

I won this book and was eager to read it based on the overall plot. I'm not going to lie at the same time I was a little nervous how the author would handle the ghost part but kuddos all around. Without spoiling it for the future reader I will say this she did it tastefully and realism. I loved the clues and riddles to each mystery location making me sit back and try to guess the location before the characters broke down the clue themselves. I also kept asking myself who the Undertaker could be. I won't lie you may have one additional suspect on your list that's never assumed but hey they could have been but yes the suspects will be on your list that is for sure if your a who dun it guesser like I am as I am reading narrowing down the possible suspects. If your looking for twist, turns, riddle clues and an ever changing guess of suspects this is the book for you. Now which oh which book of the author's do I read next and wait when will the next come out because there is another story to come. Any suggestions until then...

I really like her stories but I think this one fell short of her others . I figure out who done it before the end .and the other characters were good but could have made better

As always Heather Graham keeps you locked into the story and I love the history that she brings into her story. I will be waiting patiently for the next addition. The crew of hunters are my favorite of all her books

All the books in this Krewe of Hunters series are great. If you start with the beginning, Harrison Investigations, and follow all the books they are all great. Each book can stand on its own, but you get hooked and can't wait to read the next. I think I've read about 28 or 30 books in this series. And some of them more than once.

One of Heather Graham's more fascinating stories in my opinion. Her use of history combined with the supernatural and a touch of romance makes the Krewe of Hunters series one off my favorites to read. I hope she continues writing them indefinitely.

This is the latest book in the Krewe of Hunters Series. I love this series and this book was another winner! Women in this small town are being kidnapped and buried alive. Riddles are being sent to the newspaper and it is up to the police and FBI to find them before they die.Great Book!

Lets face it, I like all of Heather Grahams books otherwise I wouldn't purchase them. My favorites,

the Krew hunters. I really don't like giving book reports because what I find interesting or a good read, someone else might not care for it. I say read for yourself and make up your own mind.

It is a good read. I enjoy the ghost characters. Didn't figure out hoe killer until the last chapter. Heather keep up the good work.
