Customer Reviews

The English used to write this is horrible. It reads as if Google translate rewrote it from a book originally written in a different language... There may be some great knowledge in here but I couldn't follow it well enough to get through the first few pages. The author needs to get an editor or someone to help fix all the incorrect words and grammar.

Good book! It explains the different types of hair colors and hair coloring techniques. It gave some hair coloring ideas. I now know what color to wear for what season. It gave great tips on hair

coloring depending on what type of hair you have. A great tip was that it explains how to remove hair color, which is awesome when you end up with an ugly hair color! Overall good book!

It is useful for every girls.....the great book written by wonderful author Hillary Himma. Actually i got this book as gift from my girlfriend. Here i like to read 3rd chapter very informative and helpful. I learn how to colour my hair in various styles. I highly recommended....

Excellent explanation of colour theory with concise information that 'gets to the point' well set out and easy to read and understand
