Customer Reviews

The book is very well written with many photos. Would have been AWESOME if more of them had been in color. But alas the majority of them are not. It gives many informative chapters about the collector and her "obsession" with Native American Jewelry. She being in the right place at the right time and having the funds to spend on "treasures found" was truly blessed. Gives new collectors hope that they too will find "treasures" that are new to the market. I am enjoying this read. Happy that I bought it. The price used (a library deacquisition) was even better. I will continue to add to my library for reference and enjoyment.

A friend has This book & I had borrowed it! Had to have my own because I know this would be one I will go to all the time because I love vintage Native American jewelry & the history behind when native Americans starting using silver was interesting! Beautiful illustrations! Like looking at an antique book on Native American silver!

great
