Customer Reviews

I think John Oakey has put together a real neat booklet! Has helpful information and tips on the Syma X5c which is a great piece of machinery, I am 74 years old and can see what the future holds for drones or quadcopters in humanitarian purposes . This Syma X5C is a great tough little bird to train on. Flies great, have never broken a piece or had any problems. I think this little booklet will be a collectors item some day. Thank you John Oakey for your time and effort with the text and photographs in this publication. Fly On!

Love the book. It was very informative and useful.
