Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind, including a large series of country and city maps of Europe.

Everything I was looking for in a map. This a comprehensive map for the center area of Budapest. A lot of these reviews talk about small writing, but I found it quite typical of any other physical map I've used. I found the map easy to use and it had just about everything I wanted. I wish it had an extra tourist site or two labeled, but this had places like "sculpture with a view" labeled, has markers for scenic photo spots, tram/trains lines/stops, as well as World Heritage Borders. I mean, seriously, I will definitely buy from this brand again when I travel. This map even lists where the stairs are! A total win in my book.

If you order this map, also order a magnifying glass. 1:10,000 sounds great but there is WAY too much detail, so the names of streets, etc. are simply too small. Every little laneway is shown; great if you are a taxi driver but if you are a tourist, you will have trouble finding the street you want. My wife and I both have reading glasses so our close-up vision is excellent but we often had difficulty deciphering info. The city of Toronto, ON is huge and yet, it's so much easier to figure out what the street names are ... or finding a street, without a magnifying glass. I wish map publishers would publish something like a TOURIST MAP OF XXX. Not for taxi drivers who need to know where every little lane is but for tourists who want to be able to see street names in a larger size, and less difficult to find amid clutter on a map. (I have found maps like that, usually included with a Guide Book but they are sort of pocket size, so too small; hence the print is also small)

Not current. Some things have changed, but it was accurate enough that we were able to figure it out.

Perfect! Works so well!

I used a map by the same company in Prague last year, and it had the best, and most readable, public transportation routes. Other people borrowed it. I ordered this one hoping for a similar map. Looks like a good one.

worked well
