There are dozens of exercises I can do to build muscle but I don't want to spend a day trying them all. I can't afford the luxury to work out for hours each day and am sure not all exercises are created equal. Some are simply more efficient than others and this is what I expect from this book. I'm not interested in looking like a bodybuilder, I'm trying to get more of a lean fitness model body. So far I think I may have found what I've been looking for.
