Customer Reviews

Steck-Vaughn GED Test Preparation Student Workbook Mathematical Reasoning

Excellent handbook!

Tis has helped a great deal came quick ans was brand new.

I'm currently working on the materials in this book, so far so good. Starts off with basic math and gradually gets a little harder with algebra. I hope this book helps! The only downside is that not enough thorough examples are given for you to understand some of the materials in the book.

Love it

Like this book. it has many difficult word problems that we should practice before taking the test. Worth to spend time practice with it.

I love that the book came on time

Very useful

But what i all ready i get in school i love the books. Know i can do my work so mruch easier than i have before. And I think you for all this books.
