Customer Reviews

Whats not to like about a coloring book full of cats? I would recommend this to any cat lover. It is an adult/Teen book because of the intricate designs. Definitely for gel pens or coloring pencils not crayons! Get this! I was given this product at a discounted price or for free for an honest review of the product and for my thoughts on whether this product meets the standards. I have not entitled to write a good review or am not in any means associated with the company selling the product. The views in my review above are meant to inform people what I saw in the product when I received it and how good of a product it was. I am just trying to provide the best description for future customers to help them come to a decision to whether they want to purchase the product or not.

What a great coloring book! I love the black backgrounds that are sure to make colors pop. Can't wait to dig into it!! disclose that I received this product for free or at a discount in exchange for my honest and unbiased review. Like you, I depend on reviews to determine whether or not I will purchase an item. No matter what I pay (or don't pay), it does not affect the opinions I have about a product. I am encouraged to always give my honest opinion, whether it is good or bad. I am also not

compensated for my reviews.

The illustrations in this book are so cute if you are a cat lover. There are different types of cat designs on each page. The paper is a medium weight so if you plan to use a coloring medium that has the potential to bleed through, you should put some kind of backing behind it to prevent it from bleeding on the other pages in the book. Some of the pages are more intricate than others, but I wouldn't say that they are hard to color. I believe anyone of any age would enjoy coloring this book!

I love this coloring book. It is a great way to relieve your stress and refocus your mind. You will really enjoy all the pictures of cats. The pages are made from a thicker paper than your average coloring book. It is great for all ages from teens on up. I hope you get as much enjoyment from it as we have. I promise that the fact that I received the free trial has in no way affected my opinion of this item.

I ordered this as a gift for a good friend who loves cats. There are 20 different pictures to color. Each one has intricate designs. Each design is on its own page (not double sided). This was a fun product to buy.

You can color a crazy kaleidoscope of cats with this book. If you are into adult coloring books and cats or have someone on your gift-giving list with a more abstract view, this is a purrfect inexpensive pick-me-up or gift. The pictures have lots of little details to color and work well with gel pens, although is fine to use with colored pencils or crayons if you have the patience or a steady hand. I have not tried with markers, but have had issues with bleed-through in similar coloring books. The only cat lover that might not like this book is if they are into more realistic looking cats or a person that doesn't like details as you don't get the same impact at the end if you color the picture with all one color, but it can still be relaxing.

I was very excited when this came in the mail. Love cats and coloring! I enjoyed looking through the pages and seeing the different cat designs. There are definitely some that are more complex for the patient artists, and some much more simple designs that wouldn't take quite as long, so I think anyone could enjoy this coloring book! I had a fun time coloring my first page the other day. I received this product for a discount for my unbiased review.

There are 20 pages of coloring. The book looks like it was printed on a photocopier. I do not know if Alice Myles is the artist or someone who just compiled the pictures. Since I was not asked about any of these logistics, I will say I like the coloring pages. There are 8 pages I loved. I have only colored 2 so far of those 8. I always loved to color and I am happy about the trend towards adult coloring books. If you have a cat lover who loves coloring in your life I highly these pages.
