Customer Reviews

I've bought some of the other books (Medieval times, Egypt, Ancient world), because they worked very well as sub lessons and homework assignments. This one actually didn't match with what I teach about the Renaissance in my 7th grade class, so I wasn't able to use it much.

Good for anyone (grade or not). Not a boring review of history. Not dumb review of history either. Though I didn't use all the exercises provided for myself, because some were just not applicable for me. But given my age no one will care!

Very good content for her age level. This will hopefully broaden her interest.

Nice book

I use this series for homeschooling my sons who are 10 & 13 (5th & 8th grades) and find it is appropriate for both grade levels. Obviously, you could supplement these books with other materials to suit the needs of older or younger children as well. (I enjoy history, so I do these lessons with my kids and can tailor it to their needs. if your child is working independently, it will likely be too much for a younger child.) I like the way each lesson is set up (as far as quantity of information to read and length/content of the worksheets that follow each lesson). The worksheets at the end of each lesson have a variety of matching, multiple choice, short answer, and maps/diagrams depending on lesson content. As I mentioned, we like this series as a whole and I find that all of the books I have purchased are of similar quality.

Good. Thank you!

excellent middle school material
