Enrichment Math, Grade 8 (Spectrum)

Synopsis

Spectrum Enrichment Math helps students develop real-world applications of math curriculum! The lessons strengthen math skills by focusing on fractions, decimals, percents, measurements, preparing for algebra, graphs, probability, and more! The challenging, multi-step problems also help extend problem-solving and analytical abilities. It features easy-to-understand directions, is aligned to national and state standards, and also includes a complete answer key. Today, more than ever, students need to be equipped with the essential skills they need for school achievement and for success on proficiency tests. The Spectrum series has been designed to prepare students with these skills and to enhance student achievement. Developed by experts in the field of education, each title in the Spectrum workbook series offers grade-appropriate instruction and reinforcement in an effective sequence for learning success. Perfect for use at home or in school, and a favorite of parents, homeschoolers, and teachers worldwide, Spectrum is the learning partner students need for complete achievement.

Do not like this book. Bought this one and 6th grade math for my son's to work on this summer. The little bit of instruction they include do not help much to solve problems. They assume you know how to work the problem before hand. As another reviewer noted the instructions for working on your current page are actually several pages behind. Answer key appears to be right. I'll still keep looking for a helpful workbook for my kids.

Not all topics are in there. I feel this book is outdated. It is too easy for an 8th Grader. Topics that are in, are not bad but you will need another book for the topics that are missing.

This was more like what Daughter was doing in sixth grade. I still had her work through it, but I'd use it as a refresher, not the main course.

It is a very good book for studying and practice for everyday use

I am new to homeschooling and I have been purchasing different books that I think will benefit my children. I LOVE the Spectrum books. They are laid out in ways that are very helpful and very understanding.

Very happy with this workbook. Purchased for a student that is going into 8th grade as summer enrichment. The sections are not overwhelming, I love the pretest and post test sections, and think it is great for the purpose.

This could not be used as a primary book, but re-inforcement and practice. Perfect for that. Good idea to help strengthen students

Good for summer time.
