High Uintas Fishing

Synopsis

High Uintas Fishing contains instruction for fishing alpine waters, especially those found in the High Uinta Mountains of Utah. Favorite and secret fishing holes are also featured, as well as all of the maps and statistics for over 600 backcountry lakes. Includes the authors favorite flies, lures, and lakes.

Customer Reviews

This is a must have book for any fisherman visiting the High Uinta Mountains.

We hope you enjoy your trips to the High Uinta Mountains. You'll certainly catch more fish by using the information in this guide.

Good info but a little dated.

I was a little disapointed with this book..Out of 106 pages it has only 24 that actually describe the lakes in the area. There are over 60 pages of hand drawn maps- that's what topo maps are for. Doesn't mention any streams that are worthwhile. THought it would have had more information.

I tried several of the backcountry lakes in this book last summer. I caught and released many limits of cutthroat and brook trouts. This book is great for finding fishing hot spots, and it taught me how to fish the various alpine waters. It is small enough to easily carry with me, and the maps are helpful.
