Advanced Practice Palliative Nursing

Synopsis

Advanced Practice Palliative Nursing is the first text devoted to advanced practice nursing care of the seriously ill and dying. This comprehensive work addresses all aspects of palliative care including physical, psychological, social, and spiritual needs. Chapters include: symptoms common in serious illness, pediatric palliative care, spiritual and existential issues, issues around the role and function of the advanced practice nurse (APN), reimbursement, and nursing leadership on palliative care teams. Each chapter contains case examples and a strong evidence base to support the highest quality of care. The text is written by leaders in the field and includes authors who have pioneered the role of the advanced practice nurse in palliative care. This volume offers advanced practice content and practical resources for clinical practice across all settings of care and encompassing all ages, from pediatrics to geriatrics.

Customer Reviews

...this is an excellent book for advanced practice nurses in palliative care and hospice in the USA...most of what is here would be helpful to advanced practice nurses/nurse practitioners in other developed countries. * IAHPNC, Roger Woodruff * ... of utmost importance not only for advanced practice registered nurses...for all trainees for their nursing practice and examination preparation as wellan important addition for the development of practice programs or protocols...

Constance Dahlin is the Director of Professional Practices at the Hospice and Palliative Nurses

Association; a Palliative Care Consultant at the Center to Advance Palliative Care in New York, New York; and a Nurse Practitioner at the Palliative Care Service, North Shore Medical Center. Patrick J. Coyne, MSN, ACHPN, ACNS-BC, FAAN, FPCN, is the Director of Palliative Care at the Medical University of South Carolina. Betty R. Ferrell is a Professor and Director of Nursing Research and Education in the Department of Population Sciences, at the City of Hope Comprehensive Cancer Center in Duarte, California.

A lot of good information. I am new to palliative care, the book has been very helpful in my work.

The print is on the small size and pages seem thin. Otherwise, the content is good.

A reference book every hospice and palliative nurse practitioner should have in their library.
