Book by Kludas, Arnold

This is one book in a terrific series of books by Arnold Kludas. With the purchase of the this one and a few others, I have completed the set. These books are most informative and are best used as a set of invaluable reference books on passenger liners from 1858 up to today. Or at least pretty close to today. It is amazing to see how far we have come since 1858. I believe anyone interested in passenger liners will enjoy this series of books.

Was able to use this to track down the ship my father's family came here on.

I was a bellboy on the Stratheden in the early 60,s so found this interesting to read. Ended up buying the full set, great reading.
