Great book! Great read!

Slaying the Lesbian Bed Death DragonÂ This book should be in every lesbian couple's library. There are very few books on this topic, potentially as the term "lesbian bed death" has been viewed by some as controversial, but the author brings the issue to a universal level. All couples have

experienced a displacement emotionally and sexually at one stage of their relationship, and this genuinely-written guide will help you peel back the layers (and, hopefully, peel off the clothes), to find the core of what has brought the couple to this place. It will certainly save some relationships as the central message is that as long as love exists, there is hope.

Slaying the Lesbian Bed Death Dragon was an extremely well written book. It was literally chock-full of practical tips designed to put excitement and desire back into a relationship. I highly recommend it!

I purchased for a couple of my friends because I heard it was GREAT!!! and I heard right my friends really enjoyed and using the tips!!! Highly recommend!!!
