"Sudoku was great, kakuro is better' The Guardian"

I love Kakuro Puzzles. besides that, I've realized that my mental math ability is not as it used to be back in my school days. It's not that of a problem, but do I like to know that I can work things out in my head, eventhough it's not so necessary nowadays. I bought this to refresh my mental math, and I can see results already. the puzzles are big enough, not like the ones that you finish before starting them... This little book occupies your entire mind leaving no space for any scary thoughts that creap into your head late at night, and wont let you sleep..

I love this type of puzzle, and hope they strengthen my brain

Fun moderately challenging puzzles. They're both larger in grid size and harder to solve than kakuro puzzles typically found in variety puzzle books. The book is a handy size and has good quality paper for your favorite pen, pencil, marker or whatever you use to fill these out.

I've bought almost all of the Kakuro books on (only skipped most of the "easy" ones) The "Martial Arts" series is by far the best. Very well categorized by level. And within each of the books the puzzles are carefully selected to be increasingly challenging. Having seen too many puzzle books that are just "thrown together", one has to appreciate the editors of this one taking care in producing a sensible order. I just finished "Brown Belt Kakuro", and am now starting the "Black Belt" level.

Great book - arrived on time!

I purchased this item because my dad requested it. He had been struggling to find the advanced Kakuro books. Two years in a row you guys have come thru for us on making these books available. He is very happy with this item. Therefore, I give it a 5 star rating.

Love the challenge. Got tired of Sudoku.

These puzzles were just right for my husband and me - challenging without being frustratingly impossible. Each puzzle took a reasonable amount of time (more than 10 minutes but less than an hour) and the book itself is good quality - clear printing and thick enough paper to write on and erase if needed!
