Trail Of Painted Ponies Coloring Book: Native American Edition

Synopsis

Trail of Painted Ponies Coloring Book: Native American Edition is the first in a series of adult coloring books inspired by equine ethos and artistic expression. The Trail of Painted Ponies and Blue Star Coloring have come together to create twenty six designs inspired by some of the most popular Painted Pony figurines rooted in Native American lore. Fifteen figurines are depicted through brilliantly detailed expressive designs. Each pony is presented within its historical legacy and brought to life through the interpretive lens of selected artists. Horses have been a rich source of inspiration since prehistoric times, when large wild animals were first drawn on cave walls by Paleolithic artists. This book celebrates the rich collaborative tradition of The Trail of Painted Ponies and encourages you, the colorist, to take part in this artful journey.

Book Information

Paperback: 80 pages

Publisher: Blue Star Premier; Clr Csm edition (April 6, 2017)

Customer Reviews

In 2003 Rodney Barker started The Trail of Painted Ponies, a giftware company that produced one of the all-time best-selling horse collectibles in America, along with several popular art and gift books. Since its inception, over 3 million Painted Ponies figurines have been sold. A nationally acclaimed non-fiction author, Mr. Barker's books have appeared on best-seller lists, have been optioned for film, and have been translated into foreign languages. His media appearances include Good Morning America, Dateline NBC, CNN, and the Charlie Rose Show.

Received my copy today and am very impressed. The pictures are detailed enough to be fun to

color but not so tailed to make it too difficult to enjoy. Lots of different choices will make it fun to color in. I will post pictures at a later date once I have actually colored in it. Disclaimer: The manufacturer provided an advanced copy for an honest review. I have no personal or financial interest in the company or in anyone employed there. Addition to my review: Here is my extended review. I was very pleased to receive my advance copy of the new Painted Ponies Coloring Book. The coloring pages are very well developed. Detailed enough to make it interesting to color but not too detailed to make it difficult to work with, and there is a very good selection of different pictures. The front of the book has pictures of some of the Painted Pony statues which gives the colorist an idea of what the completed pages might look like. There is also an information page on the different artist who contributed to the book. A nice touch are the proverbs and quotes that are included on the back of the pages. There are also a couple pages when opened up show a double page picture to color. Also included is a picture of a blank Painted Pony that you can design and show your own talents, and then submit for review. The cover of the book features a beautiful color picture of a Painted Pony. All in all it is a lovely book. It will peak your artistic talents and provide many hours of enjoyment to the colorist. Well worth the price of admission! Mary Tickner

Disclaimer: The manufacturer provided an advanced copy for an honest review. I have no personal or financial interest in the company or in anyone employed there. I have been collecting the ceramic Painted Pony Figurines for several years now, and I was thrilled to learn that they were coming out with a Native American Horse inspired coloring book. For the cost of the book, you get more than your money's worth. They give you a certain horse to color, such as The Grey Ghost, and then on the opposite page, they explain the history and beliefs behind the horse. There is a large, panoramic pull out to color of Ponies with a nighttime starry sky with mountains in the background. It is absolutely beautiful even with the horses uncolored. It is something I would take out of the book and have framed. It includes quotes from various tribes such as the Dakota, as well as traditional Native American Proverbs and quotes from Native American Chiefs. I am looking very forward to the next books coming in the future.

Disclaimer: the manufacturer provided an advanced copy for an honest review. I have no personal or financial interest in the company or in anyone employed there. This is an absolutely stunning coloring book. I love it. The cover is beautiful and the pages are well done with perforations and pictures only on one side. There is a foldout coloring poster in the middle and very nice quotes on the back of every page. This is a work of art and a collector's piece.

I was very excited to hear about that the Trail of Painted Ponies was coming out with an adult coloring book. The outside cover was done beautifully. I love the raised details. The coloring blank pages vary from outlines of some of the Trail figurines to scenery pictures of the horses. The paper is a lot better quality than I thought. I haven't tried markers, but it takes pen and color pencil very well; very smooth and easy to blend with no bleeding marks. I highly recommend! Great for de-stressing from a long day!Disclaimer: The manufacturer provided an advanced copy for an honest review. I have no personal or financial interest in the company or in anyone employed there.

Disclaimer: The manufacturer provided an advanced copy for an honest review. I have no personal or financial interest in the company or in anyone employed there.This book is beautiful. Each coloring page has a description of the pony and its relevance to Native American culture. The pages are intricate and detailed and make for a fun coloring experience. I am considering purchasing this coloring book again as birthday gifts for friends.

Disclaimer: the manufacturer provided an advanced copy for an honest review. I have no personal or financial interest in the company or in anyone employed there.I just received the book a few days ago, the coloring book pictures are very beautiful. I love native American history, and to color the horses like the native Americans did in real life is pretty awesome. I would recommend this book to anyone.

The illustrations are beautifully rendered and you can tell the book is produced with quality in mind. You won't find this type of quality with the other cheaper coloring books. Definitely worth the extra few bucks.

I absolutely love this book. Beautiful pages to color! I've used crayon, colored pencil and even marker.. and the pages are thick enough that the marker didn't bleed through. This is a great buy, you will love it!
