Age Range: 2 - 6 years

Grade Level: Preschool - 1

## **Customer Reviews**

it's a nice song, and I agree with other parents that the story is weird and scary - especially when you look at the pictures accompanying the story. It seems to imply that those little ducks were eaten by the fox, the crocodile etc.

Way too scary for toddlers.

I have this song stuck in my head all the time. Also, where do the baby ducks go??? This book tried to make you think they got eaten or some danger befell them, but then they all five come wandering back. No one ever says where they were though. I smell a sequel.

Great story to go along with the video! Granddaughter one year old loves it!

The art work in this little book was excellent and the story had enough suspense that it allowed for entertaining reading with a happy surprise at the end. I am a fan of buying books for baby showers to encourage reading and engagement at a young age. I will buy this book again.

Great book. Super nervous ve ill stations for a board book. The colors are particularly nice.

Love singing this book to my little students. Adorable. I've always loved the song Hush Little Baby-The Mockingbird Song, and this book you can sing to that tune. There's something so cuddly about this tune and the theme of a mama duck and her little ducklings. The illustrations are also very sweet. All animals the ducks come across are smiling, even the fox. Very cute indeed.

For our grandbaby.
