## Customer Reviews

For experienced musicians only! If you are just beginning, this will be of very little help.

Nice layout, clear lessons in a logical sequence, plenty of diagrams and a very helpful companion CD.

great book

I've been teaching myself for 2 years and have bought over 20 books. For blues, this is the best. The songs are not famous, but the instruction finally taught me to bend. The exercises and CD took me through steps, from simple to more advanced, that accelerated my blues range and speed. After working with this book, blues riffs from other sources became easier.

I can recomend this book. A lot of solos in 12 bar. U learn 1 bending after two blues solos and the second bending after the third. U will then learn to breath while u make bendings in a moderat pace and much bending.
