I loved Dishonored 2 and after spending countless hours (ok the game does actually count them and it was 36 for my first play through) exploring the world I was completely in love with the art style. This collection showcases the inspiration and artistic process behind the game and it really is a beautiful collection. There are few games that really demonstrate the blending of art and gameplay the way that Dishonored does and this artbook is a celebration of that balance. Glad to have this to flip through from time to time and dive back into the cities of Dunwall and Karnaca.

Dishonored features one of the best art styles in gaming, so of course the official art book is not lacking in quality pieces. The print quality is superb and the book covers a lot of design elements that went into making the sequel. This is a perfect addition to anyone's gaming shelf.

This book is gorgeous!! Near tears when I found the line drawings by Laurent Gapaillard. The layout is sleek and the book is packed with character designs, environment art, prop designs, mood paintings, and visualizations of how certain props or effects could be animated. A must have!

Love the dishonored games, and the version is really great!! And the artbook itself is awesome! beautiful arts, rich contents, etc... if you love the game, just buy, you gonna enjoy the book. However the kindle edition is not supported on iOS app, you can read on Kindle, Kindle Fire, or windows phone, but NO iPad. :(although I love my kindle...but still have to refund and purchase a physical book.

The Dishonored series is so unique, fulfilling people like me. I love the art style, the atmosphere and the greyness yet it's so colorful in it's own way. Great Art!

The book arrived as described within the stated timeframe. Impressed!

I purchased this as a gift for my son who loves Dishonored. He was very much impressed by the book and continues to talk about it, months later!

Extremely satisfied, great quality, exactly what I was looking for.
