This is a detailed, well researched study of natural sources for helping arthritis sufferers. It is very thorough, covering diet, herbs and vitamins, exercise, natural pain relieving methods, (i.e. acupuncture and more).After reading it on kindle I decided to purchase a hard copy to refer to some information more readily. So, I recommend this book to arthritis sufferers who want to stop taking medication and pain relievers that in the end do not cure, but even do even more damage to the body than the disease.

This is a MUST HAVE read for anyone who has or has a loved one who has arthritis. It is easy to read, offers not just anti-inflammatory & pain help foods but also addresses what may be causing the auto-immune problem that translated into arthritis. Alternative techniques of accupressure and aroma therapy have worked wonders on my severe inflamed joints... I have begun to cut back on inflammation meds and don't need pain meds at all after 3 weeks of applying what I learned in this book.

A very enlightening book after dealing with the white coat drivell here take some Norco routine. Yes I get it when you have to. REFRESHING is the word I would use for this book.

Excellent content on living pain-free (or close to it). Lots of scientific backing included.
