true adventure of a young diamond miner

product was exactly as advertised ,

A great find from a library book sale, this true adventure story of a teenager turned diamond hunger in South America caught my fancy. He lived in the South American jungles for five years and spent as much time learning the ways of the Potamona Indians as he did prospecting for Brazilian diamonds. His accounts of how diamonds are found in ancient gravel deposits in rivers and streams is as engrossing as his own story of his admiration for the ways of the Indians. Writing in 1956, his understanding of the loss to civilized man of the interconnectedness of all life and the earth is as modern as today. I intend to do more research on the author, his anonymous source. I really want to know what happened to him and the Indians.
