Customer Reviews

This book was required by son's 5th grade music teacher. Cheaper here than buying through the school. It's easy for him to read. Pretty standard when it comes to a book, so not much to comment on.

This book is clear and concise. It has excellent diagrams, and section on instrument care, and lots of exercises for the beginner.

It's a standard book and great for a music literate person picking up a new instrument. I don't have experience in teaching from it but for needs it served as a great sight-reading book.

This is an excellent book for beginners. I bought it used for a penny! There was a fair amount of writing inside but nothing in pen. Obviously used with creases, but that was expected. Still in good condition with no tears or loose pages. The books content is perfect for grasping necessary concepts of music. I look forward to my children using it.

Just what we needed.

Thank you

Great.
