Some of Helen Scott's earliest memories are of playing under her grandmother's large quilting frames. There she worked on her quilts and those made for her daughters. When Helen started quilting in 1960, she chose appliquÃƒÂ©. Having painted with oils, pastels, and watercolors for many years, Helen found that appliquÃƒÂ© was like painting with cloth. She started teaching embroidery appliquÃƒÂ© and quilting classes in 1982. Using her original designs, she held the classes at various places, including the Southern Ohio Museum; Shawnee State University in Portsmouth, Ohio; and Ohio University, Athens. She has made well over 50 quilts, using her own designs and a variety of subjects, as well as 14 theme quilts and wallhangings from the old-fashioned "Bonnet Girls: Gentlewomen" pattern series.

this book was in excellent condition. however it did have that remainder pen mark on the edge if that matters to you. that does not affect the book if you ask me it just lowers the price. i have wanted this book for a long time and i am very pleased with it. the patters are nice and the graphics are easy to

copy out. a good quilter could follow this book well to make a nice quilt. if you get this one save up for bonnet girls patterns of the past too please. you will be happy you did!! the price was great and the quality mint. hope this helps you decide.

Having made many applique quilts in the past and winning blue ribbons I was very excited to receive this book. It is a real delight to look through, darling pictures. However, I feel the instructions are very poor and the scenes would be impossible to actually make. This book will be put on my book case and not used.

Ladies Day Out was the second of the two Bonnet Girls books that I ordered. I feel that the other book, Patterns of the Past, has much better girls. The Ladies Day book does have good scenes and many extras. The patterns are all clear and well laid out. If you are an appliquer or an embroider this would be a nice choice and you would probably also like the other book in the series.

There is nothing to dislike in this book, it is brilliant! I would recommend that anyone wanting to try their hand at applique should buy this book. The impact has been strong. I am making a quilt with various of the panels!

I was not disappointed in the least when I received this book. It has such beautiful illustrations and very easy to understand directions. Color pictures of items finished and even color coded patterns. All around you could not go wrong with this book if you are in trying to find ideas to applique, sew or embroider. LOVE IT!

My wife is thrilled with it

Love this book! Can't wait to get started!

Thrilled to have gotten this book
