Excellent book on how to succeed as a coach. If the steps outlined in the book are implemented by the coach, they are sure to become effective in their coaching practice.

Excellent, insightful, educational, inspirational, motivational. If you want to get away from the hourly therapy type model of offering single sessions or if you are already offering coaching packages, this book is a must read. It addresses the reasons why most coaches don't succeed at the level they dream of. Fear, insecurity, and not knowing how to talk to potential clients, get clients, etc. The book offers scripts and empowering perspectives that help you step into a win-win with potential clients.

I've read a number of books on coaching and this book really hit home with me. I was spending all sorts of time on funnels, marketing, etc and none of it felt right. This was such a great read, I'm going to read it over again!

So grateful to have been recommended this book by my own coach. A great place for practical and enlightened steps on improving or growing your practice. I will be returning to this time and again for new insights and gems. Thank you Steve and Rich for so openly sharing your knowledge and experience with us.

This book has really changed my life in so many ways. I was already obtaining clients as competent coach, I know I have the information to become a proficient coach. This book is a blessing to coaches who are scared to ask for higher rates. What I love the most about the book, it teaches you to keep the focus on the client and relationship building. As a Career Coach, who is passionate about helping people who are unemployed or make less than 60,000 per year. I want my clients to advance and I want help corporate clients who have employees who are unhappy. I worked 14 years in IT within the Federal Government and I know there are so many unhappy employees. I want to change the way people think about their life so they can obtain career happiness through career control. I hope this team of authors have a conference or workshop, because I think more coaches need hands on training to succeed.

This book has been recommended to me for over a year now, and I'm kicking myself for not reading it earlier!! I devoured this in over a day and immediately ordered copies for my clients. The information is presented in a clear and logical way and is easy to begin implementing immediately. Life changing book!

Best coaching book ever. Super clear, empowering, inspirational, I will use the ideas in this book to create the most unique expression of a deep and fearless coaching I can be. Thank you so much Rick and Steve.

This book is an absolute game changer. If you are a life coach or considering becoming one, do yourself a favor- get this book and make it your Bible. I dread traditional marketing, selling and branding, whether online or offline. The Prosperous Coach shows that, not only is it unnecessary in building a thriving practice, but can actually hinder your success. They give you absolutely brilliant, alternative ways to create high paying clients, not through selling but through the part we enjoy most- coaching. What a breath of fresh air! Thank you Rich and Steve for writing this book!!!
