Easy Victorian Florals Stained Glass Pattern Book (Dover Stained Glass Instruction)

Synopsis

As easy to execute as they are attractive, Connie Clough Eaton's splendid stained glass designs are described by Craft Digest as "beautiful and very inspirational." Her latest collection focuses on Victorian florals – one of the most popular subjects among stained glass artists. Approximately 100 versatile, permission-free images – depicted in oval, rectangular, square, and round formats – are designed to embellish traditional windows, but will work equally well as patterns for fabric painting, applique work, and other craft projects.

As easy to execute as they are attractive, Connie Clough Eaton's splendid stained glass designs are described by Craft Digest as "beautiful and very inspirational." Her latest collection focuses on Victorian florals – one of the most popular subjects among stained glass artists. Approximately 100 versatile, permission-free images – depicted in oval, rectangular, square, and round formats – are designed to embellish traditional windows, but will work equally well as patterns for fabric painting, applique work, and other craft projects.

Made a few panels. They were fairly easy for this non-professional. I enjoyed it. As the patterns do not include color, be prepared to choose your own, which is not always as simple as one might think. The more you make, the easier it gets.

While this book is filled with many interesting patterns, they are not necessarily "easy" unless you are a professional. And there are no colors in the patterns to suggest how to create a beautiful piece of stained glass.

The designs are beautiful and so easy to resize. I like the fact that they don't have any color in them. You can easily copy design and color it in to create the piece for any decor.

For the price, I am happy with this book and the number of patterns it provides. Many look to be quite attractive however you have to visualize your own color combinations. There are only a few colored examples on the cover.

Very nice book with a lot of beautiful Victorian style. Some are simple enough for a beginner whereas they do have more ambitious designs for intermediate glass work.

I can't wait to use all the designs.

Just what I wanted.

Nice book - if you happen to be a professional with tons of equipment. Took forever to arrive considering the cost charged for shipping. Though cover has nice color choices, the entire inside is a black and white plethora of patterns which the average hobbyist will never use.
