ART OF SPACE JAM

Even though I didn't expect the book to be small, I still enjoyed looking the design and concept of Space Jam! I collect Art and Design books like this to inspire me to be a cartoonist, animator, or at least an illustrator for children's books, cards, and whatnot.

I was a little disappointed with the size of this artbook - it's pocket size! The images and text are too small, although I don't regret buying it, just wish I had read the dimensions before buying. Still looks good, but it does no justice to the movie. If you're an art book enthusiast and like to see high quality big images, then you'll be better off just taking screenshots of the movie or looking up the production drawings on Google.
