I got this book to work on my sight reading. The reading studies in every section are great practice for that! I'd also recommend this book to any beginner reader, maybe even intermediate to allow more musicality while reading easier material.

Exactly what we needed for my daughter's class and was shipped promptly!

This is a nice book to whom wants to learn about fundamentals like position, type of mallets to use, how to use, how to read the music, how to play the music and others stuffs. As a plus, it has complete musics of different types like jazz, tango, etc. Cool.

Excellent book. It really has everything I was looking for, as a beginner. Thorough and musical. Highly recommended.

It also includes some very helpful photo illustrations. The book takes you through the basic steps of playing mallet instruments with progressive exercises from the beginner's level through more advanced rhythms and 4 mallet playing.
