Book by MCDUGAL LITTEL

My granddaughter's biology teacher takes the lessons from this textbook, but the students aren't issued a book. I wanted her to have the whole story and see the colorful illustrations. This is a beautiful Book! It's written so that the information reads like a story, and it makes all the difference in capturing a child's interest. I definitely recommend any McDougal Littell books!

Found it here for \$50 less than any other store and or web that I look and is new not used.

I wanted buy this book for my high schooler so he does not have to carry the book all the time. It is a little bit expensive than I wanted it to be but it is in very good condition.

Easy to read and understand

An excellent text! This is the High School Edition. You can access this on-line as well.

Got this for my son's biology class, but I also found it very well done.

Fast service and just as expected.

It was in great condition.
