# Occult Memetics: Reality Manipulation

## Synopsis

"Occult Memetics" is more than a description of the concept of information transfer. It is a brief hand guide to constructing and using propaganda in spiritual forms, and to manipulating reality. Those who understand the concepts within this work, should they choose to apply them, can potentially change the views of others without even a single spoken utterance. It delves well beyond merely propaganda itself into the nature of reality and its core form.

## Customer Reviews

If you are interested even modestly interested in memetic principles, propaganda, and understanding reality, you will enjoy this read!

I'm so glad I stumbled upon Styx as a youtuber. I can't wait to read more of his books. This book in particular went into the Occult of Kek, which I wasn't too convinced of at first a year ago, but now sport a pin in my laptop bag.

Very interesting analysis of how information and concepts can be presented in a reality-altering ways. Would really enjoy if the author wrote another book on the subject.

I watch Styx everyday on Youtube. Love his political commentary. Never really encountered the Occult before but I thought, "What the hell?" I am interested in Internet culture and memetic warfare anyway and it's a cheap buy. Only gripe is there are typos. Will buy more work by this author. Just saw that he sold 14,000 books so far in 2017. I know a lot of authors (successful and up and coming

in PDX) I know how hard it is to publish/get signed so I have a lot of respect for Tarl's work ethic.

Really pleasant read, highly recommended.

This was an interesting read for me. I had not thought much about the content of this book in a long time so this was a nice refresher.

Poorly written and unconvincingly argued.

Not what I thought it was therefore I was not able to do the spellwork in this book
